

TALK TO YOUR DOCTOR ABOUT THE

CIONIC Neural Sleeve

CIONIC, Inc. SAM ID GEUJGGJFY2J5

CIONIC, Inc. is a SAM-registered vendor and may be covered through your VA benefits. Talk to your VA provider.

At a glance

The Cionic Neural Sleeve™ is bionic clothing that combines the diagnostic power of a gait lab with the therapeutic power of Functional Electrical Stimulation (FES) into a lightweight, durable (and stylish) garment that **can be worn anywhere and work everywhere.**

Rigorously tested

94%

of participants experienced ankle dorsiflexion at heel strike

88%

of participants experienced reduced ankle inversion during swing

9°

average improvement to dorsi+inversion across all participants

THE CIONIC NEURAL SLEEVE™ CAN ASSIST WITH:

Improved walking for individuals with:

- Multiple Sclerosis
- Stroke
- Cerebral Palsy
- Incomplete Spinal Cord Injury
- Traumatic Brain Injury, or
- Other neuromuscular diagnoses

Exercise and muscle conditioning for individuals with leg weakness

COMBINES FUNCTION & FORM

Advanced Technology:

- Coordinated FES activation of dorsiflexors, plantarflexors, quadriceps, and hamstrings during gait
- Algorithms that continuously measure user movement and adapt to individual needs
- Easy-to-don sleeve and software-steerable stimulation provide consistent and effective results
- A library of exercise programs through the CIONIC App
- First-of-its-kind Read + Write Neural Interface for measuring and activating muscle firings

Indications for use:

The Cionic Neural Sleeve NS-100 is intended to provide ankle dorsiflexion and/or plantarflexion in adult (22+) individuals with foot drop and/or to assist knee flexion or extension in adult individuals with muscle weakness related to upper motor neuron disease/injury (e.g. stroke, damage to pathways to the spinal cord). The Cionic Neural Sleeve NS-100 electrically stimulates muscles in the affected leg to provide ankle dorsiflexion and/or plantarflexion of the foot and/or knee flexion or extension; thus, it also may improve the individual's gait.

The Cionic Neural Sleeve NS-100 may also:

- Facilitate muscle re-education
- Prevent/retard disuse atrophy
- Maintain or increase joint range of motion
- Increase local blood flow

Contraindications: Individuals with implanted demand-type cardiac pacemaker or defibrillators should not use the CNS; CNS should not be used over malignant tumors; CNS should not be placed over any areas where existing thrombosis is present; CNS should not be used on a leg where a regional disorder, such as a fracture or dislocation, could be adversely affected by motion from stimulation.

PHYSICIAN INFORMATION

Physician:	License #:	NPI #:
VA Facility:	RX Contact & Phone:	Fax:
Shipping Address:		City, State, Zip:
Physician Signature:		Date:

I certify that the above-prescribed device is medically indicated and in my opinion is reasonable and necessary for this patient's treatment.
